COLLEGE

Election 2024
Geography

Leave this question paper behind at the end of the exam

Time allowed: 90 minutes

This paper consists of six questions in two sections:

- Section A (data response)
- Section B (essays)

You must answer Section A, and answer **TWO** questions from Section B.

You should aim to spend no more than 30 minutes on each answer. Credit will be given for relevant sketch maps and diagrams illustrating your answers, but these are not required.

All questions carry equal marks.

SECTION A

This question *must* be answered.

QUESTION 1

Consider the fictional map of “Middle Earth” overleaf.

Using **only** this map, discuss which elements of the landscapes represented are plausible (believable), and which are less so.

In your answer, please include an annotated sketch-map of the landscape, on which you mark the locations of potential plate boundaries.

Think carefully about how you structure your response. **Do not** use any extra information you may be aware of (i.e. not shown on the map) that is in the book from which the map derives.

[20]

SECTION B

QUESTIONS 2-6

Answer *two* questions from this section. Please start each question on a new sheet of paper.

2. Do we still need maps (paper/digital) to study Geography? [20]
3. It is better not to interfere with processes in the natural world – do you agree? [20]
4. Are rivers or coasts more important? [20]
5. What is a “country”? [20]
6. What is missing from the Geography curriculum? [20]
