## Ma

## Year 7 mathematics test

## KEY STAGE

## LEVELS <br> 4-6

## Paper 1 <br> Calculator not allowed

First name $\qquad$

Last name $\qquad$

Class $\qquad$

Date

Please read this page, but do not open your booklet until your teacher tells you to start. Write your name, the name of your class and the date in the spaces above.

## Remember

- The test is 1 hour long.
- You must not use a calculator for any question in this test.

■ You will need a pen, pencil, rubber and ruler. You may find tracing paper useful.

- Some formulas you might need are on page 2.

■ This test starts with easier questions.

- Try to answer all of the questions.
- Write all of your answers and working on the test paper - do not use any rough paper. Marks may be awarded for working.
■ Check your work carefully.
- Ask your teacher if you are not sure what to do.

## Instructions

## Answers

This means write down your answer or show your working and write down your answer.

## Calculators

You must not use a calculator to answer any question in this test.

## Formulas

You might need to use these formulas.

## Trapezium

Volume $=$ area of cross-section $\times$ length

1 These shapes are drawn on centimetre square grids.

Write the area of each shape.
(a)

|  |  |  |  |  |  |  |
| :--- | :--- | :--- | :--- | :--- | :--- | :--- |
|  |  |  |  |  |  |  |
|  |  |  |  |  |  |  |
|  |  |  |  |  |  |  |
|  |  |  |  |  |  |  |
|  |  |  |  |  |  |  |
|  |  |  |  |  |  |  |

* 

Area of the shaded triangle: ................cm²
1 mark
(b)

|  |  |  |  |  |  |  |  |  |  |
| :--- | :--- | :--- | :--- | :--- | :--- | :--- | :--- | :--- | :--- |
|  |  |  |  |  |  |  |  |  |  |

Area of the shaded square:
$\mathrm{cm}^{2}$
1 mark

2 Leo buys pasta for 12 people.
(a) Each person eats 100 grams of pasta. One packet has 500 grams of pasta. How many packets must Leo buy?

(b) This is Leo's recipe for pasta sauce.

Serves four people

300 millilitres milk
200 grams cheese
25 grams butter
$\frac{1}{4}$ cup flour

He makes the sauce for 12 people.
How much of each ingredient does Leo need?

millilitres milk
grams cheese
grams butter
cup flour

3 (a) Here are some number chains that start with 2 and 5
Write the next number in each of these number chains.
Two are done for you.

Rule: Add 3

Rule: Multiply by $2 \frac{1}{2}$

Rule: Multiply by 2, then add 1

Rule: Square, then add 1

(b) Make your own number chain that starts with 2 and 5

You must multiply by a number and subtract a number.

Rule: Multiply by
then subtract

This table shows how many pupils brought each number of cans for recycling.

| Number of <br> cans | 1 | 2 | 3 | 4 | 5 | 6 | 7 | 8 | 9 |
| :--- | :--- | :--- | :--- | :--- | :--- | :--- | :--- | :--- | :--- |
| Number of <br> pupils | 2 | 3 | 1 | 5 | 6 | 2 | 3 | 0 | 2 |

(a) Complete the table below to summarise the information above.

| Number of <br> cans | 1 to 3 | 4 to 6 | 7 to 9 |
| :--- | :---: | :---: | :---: |
| Number of <br> pupils | 6 |  |  |

(b) Jon said:

Is Jon correct?

Tick ( $\mathcal{\checkmark}$ ) Yes or No.

Explain your answer.
(c) Kerstin said:

Is Kerstin correct?

Tick ( $\sqrt{ }$ ) Yes or No.

* Yes $\square$ No

Explain your answer.

5 Fill in the missing numbers.
The first is done for you.
$42 \times \ldots 100 \ldots . . .=4200$
《 $42 \times \ldots \ldots \ldots . \ldots \ldots \ldots=4200000$
$42 \times \ldots . . . . . . . . . . .=42$
$42 \times \ldots . . . . . . . . . . . . .=1$

Mia has 60 pence.

She does not have to spend it all.

Complete the table to show what fruit she could buy.

7 Jay looked at a 3D shape behind a screen.

One of these is the shape Jay saw.
Tick ( $\sqrt{ }$ ) the correct shape.

$\square$

8 This table shows the amount of time that different animals spend sleeping.

| Animal | Average sleep time <br> (per day) |
| :---: | :---: |
| bat | 19.9 hours |
| lion | 13.5 hours |
| cat | 12.1 hours |
| dog | 10.6 hours |
| seal | 6.2 hours |
| cow | 3.9 hours |
| sheep | 2.8 hours |
| horse | 1.9 hours |
| giraffe |  |

(a) A lion sleeps for 13.5 hours a day.

What is this in hours and minutes?
hours
minutes
(b) Which animal sleeps for twice as long as a giraffe?

(c) A human spends about one third of his or her life asleep.

Where should the human go in the table?

9 Owen starts to draw a quadrilateral $A B C D$.
He plots the points $A$ and $B$.

(a) What are the co-ordinates of the point $B$ ?
(b) Plot the point C at $(4,2)$.
(c) Owen's quadrilateral has two lines of symmetry.

Plot the point D, then draw Owen's quadrilateral.

10 There was a vote to decide where to have the Olympic Games in 2012.

There were 4 rounds of voting.

After each round the city with the smallest number of votes was removed.

London won.

The table shows the results.

|  | London | Paris | Madrid | New York | Moscow |
| :---: | :---: | :---: | :---: | :---: | :---: |
| first round | 22 | 21 | 20 | 19 | 15 |
| second round | 27 | 25 | 32 | 16 |  |
| third round | 39 | 33 | 31 |  |  |
| fourth round | 54 | 50 |  |  |  |

(a) 104 people voted in the fourth round.

How many people voted in the first round?
(b) In how many of the 4 rounds did London have more votes than any other city?

Put a ring around your answer.
in none of them
in 1 of them
in 2 of them
in 3 of them in all of them
(c) Alex says:
'All the 54 people who voted for London in the fourth round also voted for London in the third round.'

Could Alex be correct?

Tick $(\sqrt{ })$ Yes or No.

* Yes $\square$ No

Use the information in the table to explain your answer.

11 Write,,$+- \times$, or $\div$ in each space to make this equation correct.

Find two different ways to do it.
You may use each sign more than once each time.
4
4........ . 3
2
$1=10$

4........ 3
2
$1=10$

12 This table shows the total area of some different countries, and the area that is covered in forest.

| Country | Total area <br> (thousand $\mathrm{km}^{2}$ ) | Area covered in <br> forest (thousand $\mathrm{km}^{2}$ ) |
| :---: | :---: | :---: |
| Australia | 7682 | 1545 |
| Canada | 9221 | 2446 |
| China | 9327 | 1635 |
| Finland | 305 | 219 |
| Latvia | 62 | 30 |
| UK | 242 | 28 |

(a) Which country has the largest area covered in forest?

(b) Which country has more than half of its total area covered in forest?
(c) About what percentage of Latvia is covered in forest?

Give your answer to the nearest 10\%
\%

13 Look at the triangle on the square grid.

Rotate it $90^{\circ}$ anticlockwise around the point $R$.

Draw the triangle in its new position.

2 marks

14 David and Anna have these cards.
1
2

(a) David uses four of the cards to make a pair of equivalent fractions.

Write numbers in the boxes to show how David can do this.

(b) Anna has the same cards.

She uses four of the cards to make a different pair of equivalent fractions.

Write numbers in the boxes to show how Anna can do this.

15 Ellie draws a rectangle.

She draws two straight lines inside it.

Her lines divide the rectangle into 1 triangle and 3 quadrilaterals.
(a) Draw two straight lines inside this rectangle.

Your lines must divide the rectangle into 2 triangles and 1 quadrilateral.

(b) Draw two straight lines inside this rectangle.

Your lines must divide the rectangle into 3 triangles.

16 Lina has some hundred squares that start like this.

| 1 | 2 | 3 | 4 | 5 | 6 | 7 | 8 | 9 | 10 |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |
| 11 | 12 | 13 | 14 | 15 | 16 | 17 | 18 | 19 | 20 |
| 21 | 22 | 23 | 24 | 25 | 26 | 27 | 28 | 29 | 30 |
| 31 | 32 | 33 | 34 | 35 | 36 | 37 | 38 | 39 | 40 |

Lina shades in some numbers on her hundred squares.
Draw a line to match each description with the correct shading.
The first is done for you.

square numbers

2 marks

17 (a) Look at this equation.

$$
a b=24
$$

Write four different solutions to the equation.
$a=$

$$
b=
$$

$$
b=
$$

$$
b=
$$

$$
a=
$$

$$
b=
$$

(b) Now look at this equation.

$$
a+b=10
$$

What values of $a$ and $b$ are solutions to both $a b=24$ and

$$
(a+b=10) ?
$$

 $a=$

$$
b=
$$

18 Each of these pie charts shows the same information as one of the bar charts.

Draw lines to match each pie chart with the bar chart that shows the same information.

The first is done for you.

2 marks

Emma and Tami collected the same data about the number of people in a shop.

Emma's chart shows all the data.

Tami's chart shows only some of the data.

Number of people

Tami's chart

Some labels are missing.

Look at both charts to answer each question.
(a) Emma's chart starts at 9am.

At what time does Tami's chart start?

(b) How many people were in the shop at 1 pm ?

20 Eva drew this triangle.

## not drawn to scale

Colin wants to draw a scaled version of Eva's triangle.

Write what lengths and angles Colin could draw.

Lengths:
cm;
cm;
cm
1 mark ${ }^{\circ}$

Angles:
${ }^{\circ}$;。

21 Mei has lots of blocks like these.

Mei uses the smallest number of blocks she can to make a cube.
(a) How many blocks does Mei use?
$\qquad$
(b) What is the volume of the cube?

22 (a) Daniel has a bag of marbles.
He has twice as many black marbles as red marbles. The rest are yellow.

He is going to take a marble at random from the bag.
The table shows the probability of taking a yellow, black or red marble.
Complete the table.

| Colour | yellow | black | red |
| :---: | :---: | :---: | :---: |
| Probability | $\frac{1}{7}$ |  |  |
|  |  |  |  |

(b) Esha has two bags of marbles.

One bag has 20 marbles and one bag has 10 marbles.
Esha puts all 30 marbles into a new bag.
Write the probability of taking a black or red marble from the new bag.

$\square$

23 Look at the graphs of $x=-1$ and $x=3$
The $x$-axis is on the grid, but the $y$-axis is missing.

Draw the $y$-axis on the grid.

Toby and Ada each have a pot containing the same number of counters.

Ada puts half of her counters into Toby's pot.
Toby wants to make the number of counters in each pot equal again.

What fraction of the counters in his pot must Toby put into Ada's pot?

1 mark

25 Each number in this sequence is half of the number before.

Write the missing numbers.

12, 6, 3,

26
Holly says:
‘Think of a number.
Add 3 to it.
W + 3
Double the result.
$(w+3) \times 2$
Take away 4
Divide the result by 2
Take away your original number.
The answer is $1^{\prime}$

Holly starts to write her rule as an equation.

Put numbers and symbols in the empty boxes to complete the equation.

27 In this diagram the two parallel lines are marked with arrows.

Work out the value of $r$

28 Which number is the mean of the other four numbers?

Put a ring around it.
12
8
11
7
2

29 (a) Write $\frac{6}{8}$ as a percentage.
(b) Write $\frac{3}{8}$ as a decimal.
