Introduction

The test papers will be marked by external markers. The markers will follow the mark scheme in this booklet, which is provided here to inform teachers.

This booklet includes the mark scheme for paper 1 and paper 2 in both tiers.

The structure of the mark scheme for tiers 3–6 and 5–7

The mark scheme for each question shows:

- the teaching points from the key stage 3 programme of study;
- the marks available for each part of the question;
- the total marks available for the question;
- the answer or answers expected, indicated by an asterisk;
- additional guidance to assist markers in making professional judgements.

When a question appears in an identical form in both tiers, the answers to the question are given only once in the mark scheme. For clarity, both question numbers are given. The following example, from tier 3–6 paper 1 question 11 and from tier 5–7 paper 1 question 2, illustrates this.

Tier	Q No
3–6	11
5–7	2

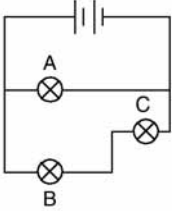

Part	Mark	Answer	Accept	Additional guidance
a 1/2h	1	any one from: * to allow his resting pulse rate to be determined * to compare his pulse before and after drinking the cola * so he would know if it had changed	accept 'to get a reading of heart rate when relaxed' accept 'to make sure his heart rate was steady' accept 'to see if there was any change' accept 'so he could find out his normal heart rate' accept 'to get a reliable reading of his pulse rate' accept 'to find the average'	'he wanted to know his heart rate before he drank his cola' is insufficient as this is given in the question
b 1/2k	1	* his heart rate went up after he drank some cola	accept 'his heart rate or pulse went up' accept 'it shows his heart rate went up' accept 'the graph shows his heart rate changed' accept 'the line goes up or changed' accept 'the points get higher'	

Where more than one answer is acceptable, this is indicated in the mark scheme by ‘any **one** from’. Each possible correct answer is marked with an asterisk. In some cases, alternative answers are indicated by ‘**or**’.

In the following example from part (a) (ii) of tier 5–7 paper 2 question 13, an answer giving ‘alcohol increases the reaction time’ and ‘alcohol reduces co-ordination’ will be awarded two marks. However, an answer which gives ‘alcohol reduces co-ordination’ and ‘they would feel dizzy’ will be given only one mark, as both points are correct answers for the same mark.

Part	Mark	Answer	Accept	Additional guidance
a ii 2/2m	2	any two from: * alcohol increases the reaction time * alcohol reduces co-ordination * alcohol causes or increases errors of judgement * alcohol reduces concentration	accept ‘it slows reactions’ or ‘it slows the reaction time’ accept ‘they would feel dizzy’ accept ‘they would be sleepy or drowsy’ accept ‘alcohol makes them lose more heat’ accept ‘it causes blurred vision’	‘it slows them down’ is insufficient

In the following example, from part (a) of tier 3–6 paper 1 question 17 and tier 5–7 question 8, the statement in **bold type** in the ‘Additional guidance’ column is given in order to indicate the general requirement of that part of the question.

Part	Mark	Answer	Accept	Additional guidance
a 4/1a	2	* one mark for B and C in series * one mark for A in parallel with B and C, for example 		both marks should only be awarded if the circuit is correct award one mark if all three bulbs are drawn in parallel or all in series

In the ‘Accept’ column there may be:

- examples of answers which are acceptable, although they do not correspond exactly to the expected answers;
- some examples of higher level answers, which could be given by higher attaining pupils answering questions on the lower levels in the tier.

In the ‘**Additional guidance**’ column there may be:

- answers which are not acceptable;
- a reminder, in questions involving calculations, that consequential marking may be used;
- instructions on action in the event of consequential marking (see below);
- guidance to markers where pupils have not followed the instructions on the question.

Marking

The number of marks available for each part of a question and the maximum number of marks for the question as a whole are shown on the question paper. Every part of a question which has been attempted by a pupil will be marked and the mark for each part recorded in the mark box alongside that part. Half marks will not be given in any question.

The total number of marks awarded for all the parts of questions on a double page will be written in the box at the bottom of the right-hand page. In some instances, this will be the sum of marks awarded for two questions. The total number of marks obtained on the paper will be recorded on the front of the test paper.

The total number of marks available is 180 in tier 3–6 and 150 in tier 5–7.

Using professional judgement in marking

The instructions given in the mark scheme will enable the markers to decide whether pupils have correctly answered a particular question. However, there will be instances where an answer given by a pupil does not correspond to any of the possible responses shown in the mark scheme. In such cases, markers will apply their professional judgement to decide if credit should be given. They will consider whether the response:

- is equivalent to those listed;
- conveys the ideas underlying the question as outlined in the statement in **bold type** in the mark scheme, if one is given.

If any doubt persists, markers will consult with their supervisors for guidance.

Marking misspellings of words

If a pupil misspells a word, markers will apply the following procedures:

- if it is clear that the pupil has made a simple error, eg ‘tow’ for ‘two’ or ‘Son’ for ‘Sun’, then the incorrect spelling will be accepted and the mark awarded;
- if a pupil misspells a word copied from the text of the question or from a selection given, and the new word does not have any inappropriate meaning, the incorrect spelling will be accepted and the mark awarded;
- if specific scientific vocabulary is required in the answer, a creditworthy misspelling must be a phonetic equivalent of the required word, with the major syllables of the correct word represented in the answer.

Marking lists of alternative answers

In some instances, pupils give more than one answer to a single question. If any of the answers given is incorrect, the mark will not be awarded, irrespective of the order in which the answers are given. In some cases, a correct answer is given alongside other answers which, while correct, would be insufficient for the mark. In these cases, the mark will be given for the correct answer.

Marking questions containing calculations

Some questions require pupils to perform calculations. Where two marks are available, they are advised to show their working. Pupils who do not show their working but give the correct answer will be awarded full marks.

The result of one calculation may be required in order to carry out further calculations. In such instances:

- the term ‘consequential marking’ appears in the ‘Additional guidance’ column;
- a pupil’s result for the first calculation is treated as the starting point for the second;
- the pupil is awarded full credit for the second calculation if it is carried out correctly, even if the result of the first calculation was wrong.

Marking answers given in the wrong place

In some cases, pupils may write correct answers in the wrong part of the question. Markers will use professional judgement to decide whether a pupil has correctly understood the question and simply written the answer in the wrong place. Similarly, if pupils identify an answer by a cross or other indication when a tick is required, they will be given credit for their responses.

Awarding levels

The sum of the marks gained on both papers determines the level awarded. A copy of the level threshold tables which show the mark ranges for the award of different levels will be sent to each school by QCA in July 2004.

Schools will be notified of pupils’ results by means of a marksheet, which will be returned to schools by the External Marking Agency with the pupils’ marked scripts. The marksheet will include pupils’ scores on the test papers and the levels awarded.

The 2004 key stage 3 science tests and mark schemes were developed by the University of Cambridge Local Examinations Syndicate and the Centre for Research into Primary Science and Technology (CRIPSAT) on behalf of QCA.

The requirements of the Introduction to the Programme of Study apply across Sc1, Sc2, Sc3 and Sc4.

The Mark Allocation Grids on this pair of pages show the context of these questions in relation to Sc1, Sc2, Sc3 and Sc4.

[Blank page]

Tier 3–6	Q No 1	Part	Mark	Answer	Accept	Additional guidance
a i	2/4a	1	1	* Katie ✓ Becca ✓		both answers are required for the mark if more than two boxes are ticked, award no mark
a ii	2/4a	1	1	any one from * their mother or Pam has freckles * their father or David has freckles * their parents have freckles * their grandmother or Mary has freckles * only family B has freckles	accept 'Rachel and Bill do not have freckles' accept 'a grandparent has freckles' accept 'their family or the family on the right has freckles' accept 'freckles run in the family' accept 'family A does not have freckles'	
a iii	2/4a	1	1	* his parents or Bob and Emily do not have freckles	accept 'his family does not have freckles' accept 'his grandparents do not have freckles' accept 'he is not in family B' if the answer for a ii is 'only family B has freckles'	
b i	2/1e	1	1	* egg cell ✓ sperm cell ✓		both answers are required for the mark if more than two boxes are ticked, deduct one mark for each incorrect tick minimum mark zero
b ii	2/2g	1	1	* reproductive system ✓		if more than one box is ticked, award no mark
Total			5			

Tier 3–6	Q No 2	Part	Mark	Answer	Accept	Additional guidance
		a 1/2e	1	any one from * to make the measurements reliable * to make it fair * make sure the measurement is correct * to make it accurate	accept 'it is hard to measure a bent finger' accept 'the measurement would be wrong'	
		b i 1/2g	1	* mm	accept 'millimetres'	
		b ii 1/2i	1	any one from * some of the lengths appear in more than one bar * some people were counted twice * the range varies for the bars * some lengths are missed out	accept 'they did 65 twice or three times' accept correct references to specific numbers eg 'they could not record 55.5 or 60.5 mm' accept suggestions for improving the bar chart such as 'the last bar should be 71–75'	'the numbers are written wrongly' is insufficient
		c 1/2b	1	* observe pupils' tongues ✓		if more than one box is ticked, award no mark
		d 1/2i	1	* a bar drawn to 10		

Tier 3–6	Q No 2	Part	Mark	Answer	Accept	Additional guidance
e 1/2e	1	* more children were recorded in investigation 1 than in investigation 2		accept the converse accept '16 children recorded with measurements 50–60 mm. Only 14 children recorded in investigation 2' accept '36 people in the first investigation, but only 14 in the second' accept 'there are more higher bars' accept 'higher bars' accept 'they add up to different numbers'		numbers need not be precise for this mark <i>do not accept</i> an answer which only compares the number of bars on the bar charts
Total	6					

Tier 3–6		Q No	Additional guidance	
Part	Mark	Answer	Accept	do <i>not</i> accept 'air'
a i 2/2i	1	* oxygen	accept 'O ₂ '	
	1	any one from * glucose * digested food * vitamins * minerals * water	accept 'sugar' accept 'amino acids' or 'fatty acids' or 'glycerol' accept 'food' or 'nutrients' accept a named vitamin accept a named mineral	
b 2/2c 2/2i	1	any one from * it prevents oxygen getting to the organ * it prevents food getting to the organ * it stops blood getting to the organ	accept 'it stops oxygen' accept 'it blocks the blood vessel' accept 'it causes a heart attack' or 'a stroke' or 'thrombosis' accept 'it stops the flow of blood' or 'it stops blood flowing around the body'	'you would die' is insufficient
	1	any one from * it stops bleeding * it prevents bacteria or viruses from entering	accept 'microbes' or 'germs' for bacteria accept 'it stops dirt getting in' accept 'it stops infection' accept 'it stops disease'	these less precise terms are accepted if the answer indicates that the scab acts as a barrier 'to keep it clean' is insufficient 'it stops diseases getting in' is insufficient
Total	4			

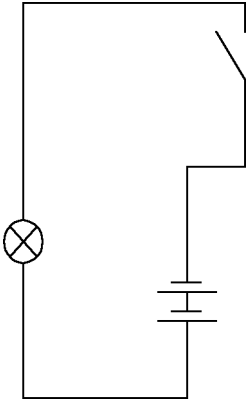

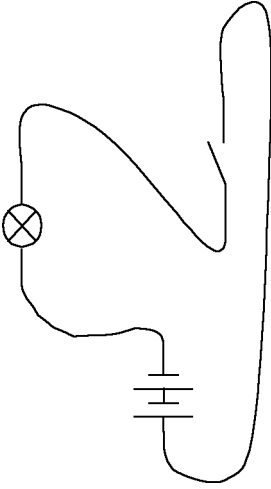

Tier 3–6		Q No		
		4		
Part	Mark	Answer	Accept	Additional guidance
a 3/1d	1	* It has a high melting point. ✓		if more than two boxes are ticked, deduct one mark for each incorrect tick minimum mark zero
	1	* It is a good conductor of heat and electricity. ✓		
b i 3/1h	1	* filtration or filtering	accept 'filter'	
	1 1	* A: black particles or solid or residue * B: blue solution or filtrate	accept 'particles' or 'solids' accept 'solution' accept 'liquid'	<i>do not accept</i> 'blue particles' <i>do not accept</i> 'black solution' <i>do not accept</i> 'mixture'
c 3/1h	1	* the water had evaporated	accept 'the liquid had evaporated' or 'it had evaporated' accept a description of evaporation eg 'it turned into gas'	'it had dried up' is insufficient <i>do not accept</i> 'the solution evaporated'
	Total	6		

Tier 3–6		Q No 5		
Part	Mark	Answer	Accept	Additional guidance
a i 4/3g	1	* vibrate	accept 'move in and out'	'move' is insufficient
a ii 4/3g	1	any one from * it stops the sound waves or vibrations reaching our eardrums * it stops the eardrum vibrating * the eardrum vibrates less	accept 'it stops sound reaching our eardrum' accept 'it absorbs sound' accept 'it blocks the ear' accept 'it stops the eardrum moving in and out' accept 'soundwaves are reflected by the wax'	
b i 1/2k	1	* human <i>and</i> sparrow <i>and</i> rabbit	accept 'bird' for sparrow	answers may be in any order all three answers are required for the mark
b ii 1/2k	1	* cat		
Total	4			

Sourced from SATs-Papers.co.uk

<https://www.SATs-Papers.co.uk>

Tier 3–6		Q No 6	Additional guidance	
Part	Mark	Answer	Accept	Additional guidance
a 1/2a	1	any one from * it describes how they will carry out their investigation * it has more information or detail * it includes a fair test * it includes measurement	accept a description which identifies a factor to be kept constant accept 'the second plan includes apparatus to be used or a measurement or a comparison'	accept the converse of any marking point accept a statement referring to any of the points in the second plan accept answers which describe a consequence of the test not being fair
b 1/2f	1	* to avoid scalding or burning themselves	accept 'it is very hot' accept 'to avoid spilling'	credit may be given for answers which, although not accurate, imply that the water is at a high temperature eg 'it is nearly boiling'
c 1/2h	1	any one from * it allowed them to compare the times for different tea bags * it told them when the measurement was completed * so they knew when to stop	accept 'as soon as it has gone they stopped timing' accept 'so they know how long it takes' accept 'the cross let them see when the tea produced by the 3 bags was the same' accept 'so they could stop at the right time' accept 'it tells them when they have dissolved the same'	answers must indicate that the cross shows when the teas are the same colour or allows a measurement to be made 'it made it fair' is insufficient
d i 1/2i	1	* results ✓		if more than one box is ticked, award no mark
d ii 1/2k	1	* triangle circle square	accept a drawing of a triangle, a circle and a square	all three answers are required in the correct order
Total	5			

Tier 3–6 Q No 7		Accept	Additional guidance
Part	Mark	Answer	
a i 4/1a	1	<p>any one from</p> <ul style="list-style-type: none"> * it let the current or electricity flow * current could flow through the bulb * it completed the circuit 	<p>accept 'the contacts came together'</p>
a ii 4/1a	1	<p>* all three components must be correctly connected in series</p> 	<p>a mark may be awarded for any correctly connected circuit drawn with straight or curved wires</p> <p>award a mark for a correct circuit diagram in which the pupil has drawn the symbols instead of connecting the printed symbols</p> 
b i 4/1b	1	<p>any one from</p> <ul style="list-style-type: none"> * the bulb is broken or blown * the filament is broken 	<p>accept 'the coil is broken'</p>
b ii 4/1b	1	<p>* turn one of the cells around</p>	<p>'the bulb is not connected properly' is insufficient</p> <p>'turn the batteries round' is insufficient</p> <p>the mark may be awarded for a description of the fault eg 'both batteries are the same way up'</p>
c 4/1b	1	<p>any one from</p> <ul style="list-style-type: none"> * it stopped current from flowing * paper does not conduct or is an insulator * the circuit was broken or incomplete * so that the circuit can be completed 	<p>accept 'to stop the batteries running down'</p> <p>accept 'to stop the contacts coming together'</p>
Total	5		

Tier 3–6	Q No 8	Mark	Answer	Accept	Additional guidance
a	4/1d	1	* 		all four poles must be correct for the mark
b	4/1d	1	* 		all four poles must be correct for the mark
c	3/1d	1	any one from * nothing * they would both point towards magnetic north	accept 'they would not point to the aluminium' accept 'they would all point north or up or down' accept 'they would point the same way or in the same direction' accept 'they would go back to how they were'	do not accept 'the compasses or the experiment or it would not work'
Total		3

Tier 3–6 5–7		Q No 13 4		
Part	Mark	Answer	Accept	Additional guidance
a i 3/3d 1/2k	1	* carbon dioxide any one from it took more or most alkali to neutralise it or to change the colour of the indicator back to green	accept 'CO ₂ ' accept 'it took most drops' or 'it took 160'	both the answer and the reason are required for the mark
a ii 3/3d	1	* air it did not change the colour of the indicator or the pH of the solution	accept 'no drops or alkali were needed' accept 'there was no change'	both the answer and the reason are required for the mark
a iii 3/3e	1	any one from * neutralises it * it raises the pH	accept 'it makes it less acidic' accept 'it makes it pH 7' accept 'it forms a salt'	do not accept 'makes it more alkaline'
b 3/3a 3/1f	1 1	* zinc chloride + * hydrogen		answers may be in either order
Total	5			

Tier 3–6 5–7		Q No 14 5		
Part	Mark	Answer	Accept	Additional guidance
a i 3/1g	1	* a mixture ✓		if more than one box is ticked, award no mark
a ii 3/1e	1	* a compound ✓		if more than one box is ticked, award no mark
a iii 3/1a	1	any one from * they are denser than the liquid * the liquid is less dense than the solid	accept 'it is heavier than the liquid or the paint' accept 'the solid particles are more dense or heavier or too heavy' accept 'the solid is denser' accept 'the liquid is less dense' or 'the liquid is lighter'	do not accept 'solid particles are heavy' without a comparison or qualifier eg 'too heavy'
b 3/2b	1	any one from * it is insoluble in water * water is not a solvent for the paint * it dissolves in white spirit * white spirit is a solvent for the paint		'it is waterproof' is insufficient
Total	4			

Tier 3–6 5–7		Q No 15 6		
Part	Mark	Answer	Accept	Additional guidance
a i 3/2c	1	* B		
a ii 3/2c	1	* 55	accept answers from 54 to 56	
a iii 3/2c	1	* <i>point A</i> : solid		
	1	* <i>point D</i> : liquid		
b 4/5f	1	* conduction ✓		if more than one box is ticked, award no mark
c 3/1a	1	any one from * the boiling point of water is less than that of stearic acid * water could not transfer enough energy * the maximum temperature of water is 100°C * it cannot get hot enough	accept 'the water is not hot enough'	
Total	6		accept 'stearic acid has a very high boiling point'	

Tier 3–6 5–7		Q No 16 7	Part	Mark	Answer	Accept	Additional guidance
	a i	4/5e	1	* A and F			answers may be in either order both answers are required for the mark
	a ii	4/5e	1	* A			
	a iii	4/5e	1	* E			
	b i	4/2c	1	* gravity or gravitational force	accept 'weight'		
	b ii	4/2d	1	any one from * friction * drag * water resistance	accept 'air resistance'		
	c	4/5e 4/5g	1 1 1	* kinetic * sound * thermal	accept 'heat'		the last two answers may be in either order
	Total		8				

Tier 3–6 5–7		Q No 17 8	Part	Mark	Answer	Accept	Additional guidance
a	4/1a	1 1		1	* one mark for B and C in series * one mark for A in parallel with B and C for example		both marks should only be awarded if the circuit is correct award one mark if all three bulbs are drawn in parallel or all in series
b	4/1b	1		1	* A any one from * it has more current passing through it * A has 3 V across it and B and C have 1.5 V across them * A has twice the voltage of B or C * because it is directly connected to the supply		both the letter and the reason are required for the mark answers should convey the idea that energy or voltage is shared between B and C but A is not sharing energy or voltage
						accept 'the others have less current passing through them' accept 'A has a greater voltage across it' accept 'B and C have less voltage across them' accept 'there is less resistance in the top or A branch of the circuit' accept 'the others are in series'	
c	4/1a	1		1	* a letter S in any part of the circuit before it branches		
Total							

Tier 3–6 5–7	Q No 18 9	Part	Mark	Answer	Accept	Additional guidance
		a i 4/3c	1	* A and C		answers may be in either order both answers are required for the mark
		a ii 4/3d	1	any one from * B * D		
		b 4/5g	1	any one from * not all the light is reflected * some of the light is refracted * some of the light is absorbed * light is scattered by the glass	accept 'it splits into two rays' or 'it splits'	
		Total	3

Part	Mark	Answer	Accept	Additional guidance
a 4/2b 4/1d	1 1	* gravity * magnetic force or magnetism	accept 'weight' accept 'repulsion' or 'upthrust'	answers may be in either order do not accept 'air resistance'
b i 1/2j	1	* 12		
b ii 1/2k	1	any one from * the paper cup stopped moving * the paper cup reached the bottom magnet	accept 'it hit the bottom' accept 'the paper cup could not go any further'	
c 4/1d 3/1d	1	any one from * iron is magnetic * iron nails are attracted to a magnet * there is a magnetic force on the iron	accept 'aluminium is not magnetic' accept 'the rivets are not attracted to a magnet'	do not accept 'aluminium or rivets are less magnetic' do not accept 'iron or nails are more magnetic than aluminium or rivets'
Total	5			

Tier 3–6 5–7	Q No 12 3	Part	Mark	Answer	Accept	Additional guidance
		a 1/2d	2	any two from * initial temperature of water * exclusion of draughts * volume or mass of water * surface area (of water) * humidity	accept 'same amount of draughts' accept 'amount of water' accept 'shape or size or material of container' accept 'the time it is left for'	'temperature' is insufficient do not accept 'size of room'
		b 1/2o	1	* they have not collected data about temperature * no data recorded about temperature	accept 'they did not measure temperature' accept 'no information about temperature' accept 'no temperature'	
		c 1/2p	1	* the line is not straight (converse) * the line should be straight	accept 'the line is zig-zag' accept 'they joined up all the points' accept 'they didn't go between the points' accept 'the line does not need to go through all the points'	
		d 1/2i	1	* 6 points correctly plotted to the nearest half square		
		e 1/2i	1	* a straight line of best fit between some of the points		

Tier 3–6 5–7	Q No 12 3			
Part	Mark	Answer	Accept	Additional guidance
f 1/2k	1	<input type="checkbox"/> <input checked="" type="checkbox"/> room 2 and * the points for room 2 are lower than room 1 * the container in room 2 reaches 30g in 5 days, room 1 reaches 45g * more water evaporated in the same time * the volume goes down more quickly	accept 'there is less water in the container in room 2 than in room 1' accept 'amount of water dropped more in the first three days' accept 'the line for room 2 is steeper' accept 'the numbers go down more quickly' accept 'the mass goes down more quickly'	
Total	7			

Tier 3–6 5–7		Q No 13 4	Additional guidance	
Part	Mark	Answer	Accept	Additional guidance
a i 3/3d	1	* red or pink	accept 'orange' or 'yellow'	
a ii 3/3d	1	* any number greater than 0 and smaller than 7	accept '0'	
b i 3/3e	1	* carbon dioxide is gas	accept 'carbon dioxide or a gas is produced'	
b ii 3/3f	1	any one from * no more carbon dioxide or gas was produced * the reaction stopped * all the hydrochloric acid was used up * there was an excess of magnesium carbonate or carbonate	accept 'the acid had been neutralised'	<i>do not accept</i> 'all the magnesium carbonate was used up'
c 3/1e 3/3e	1 1	* a compound ✓ * a salt ✓		if more than two boxes are ticked, deduct one mark for each incorrect tick minimum mark zero
d 2/2b	1	any one from * without it digestion would stop or slow down * acid is needed for digestion * the enzymes only work in acid conditions or at a low pH * it is needed to kill bacteria or microbes	accept 'to break down food'	<i>do not accept</i> 'germs'
Total	7			

Tier 3–6 5–7		Q No 14 5	Additional guidance	
Part	Mark	Answer	Accept	
a i 2/4b	1	* vertebrates		<i>do not accept 'vertebrae'</i>
a ii 2/4b	1	* reptiles		
b 2/2e	1	any one from * so that it can bend * to allow movement		
c 2/2e	1	any one from * to stop the bones rubbing together * to stop bones getting worn down * to cushion the bones	accept 'it reduces friction' accept 'it can be squashed' accept 'it absorbs shock'	
d 2/2e	1	* <i>the biceps contracts</i> <i>the triceps relaxes</i>		both answers are required for the mark
Total	5			

Tier 3–6 5–7	Q No 15 6	Part	Mark	Answer	Accept	Additional guidance
		a 1/2h	1	any one from * a bigger sample * more data are collected in the survey	accept 'one person could make it up' accept 'one garden may not be typical'	
		b 1/2d	2	any two from * time of year or season * location or gardens * duration of the observation	accept 'the time' for one mark if 'time of year' or 'season' or 'duration' is not given	'the environment' is insufficient
		c i 1/2e	1	any one from * they would need to look at the pattern in the data for more than a year * they would need to compare data collected in another year with that available in 2002	accept 'data from another year or last year' accept 'more data or data from the time when his grandad was young' accept 'data from when his grandad was young is not available'	
		c ii 1/1b	1	* data would need to show fewer sparrows in 2002 than in earlier years	accept 'more sparrows would need to be recorded in earlier years than in 2002'	
		Total	5			

Tier 3–6 5–7		Q No 16 7	Part	Mark	Answer	Accept	Additional guidance
