Instructions

You may not use a calculator to answer any questions in this test.

Questions and answers

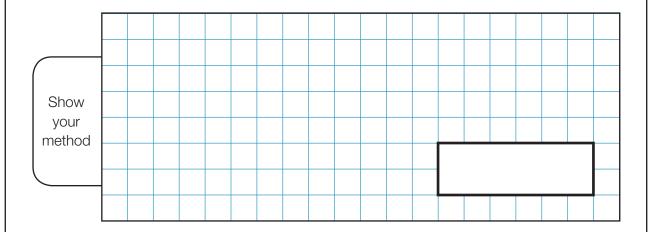

You have **35 minutes** to complete this test.

Follow the instructions for each question.

Work as quickly and as carefully as you can.

If you need to do working out, you can use the space around the question.

Some questions have a method box like this:

For these questions you may get a mark for showing your method.

If you cannot do one of the questions, go on to the next one.

You can come back to it later, if you have time.

If you finish before the end, go back and check your work.

Marks

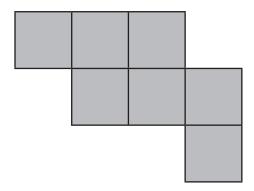

The number under each line at the side of the page tells you the maximum number of marks for each question.

2 marks

2 Here is a floor made of square tiles.

The area of each tile is 1 m².

What is the total area of the floor?

m²

There are 10 sheets of stickers in a pack. Each sheet has the same number of stickers. There are 120 stickers altogether in a pack. How many stickers are on each sheet?	
There are 120 stickers altogether in a pack.	
How many stickers are on each sheet?	

1 mark

Complete the boxes.

18	rounded to the nearest 10	
182	rounded to the nearest 10	
182	rounded to the nearest 100	

$$3 \times 8 \times 9$$

$$2 \times 4 \times 9$$

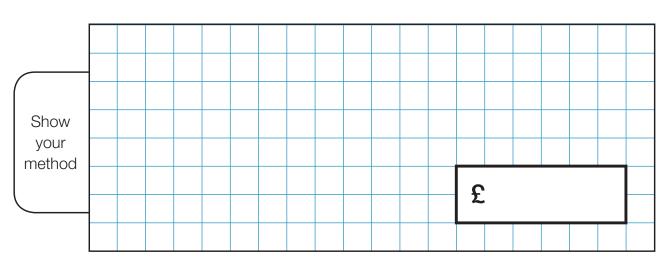

$$9 \times 2 \times 12$$

1 mark

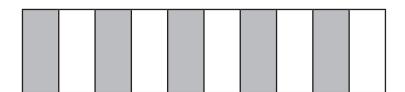

6 Jemima has £352

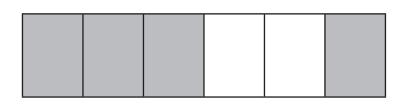

Henry has £1,000 more than Jemima.

How much money do they have altogether?

1 2

3 4

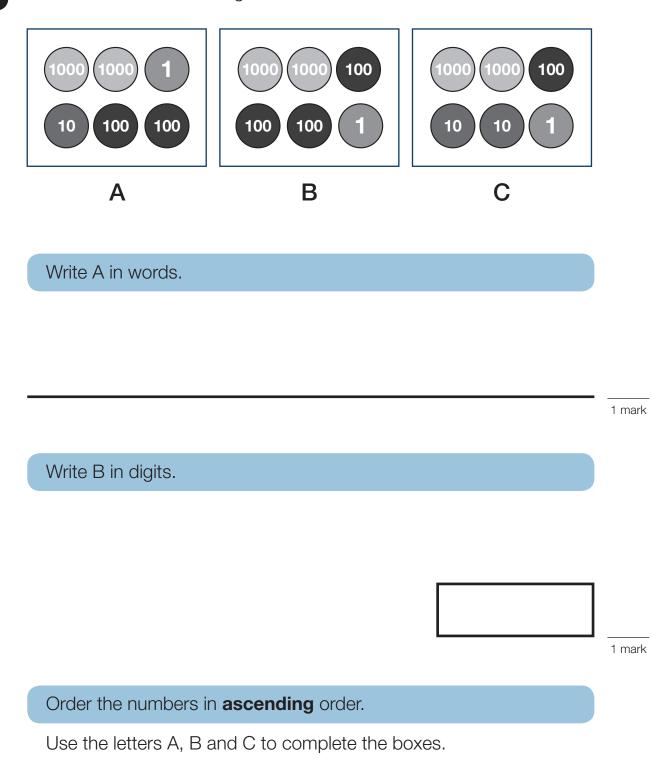

2 marks

8 Complete the table.

Fraction	Decimal
